

**Is there an extension or grace period to submit my renewal application?**

Yes. Licenses expire when the annual renewal term ends. At that time, licensees have an additional thirty (30) day grace period to renew the license and maintain an interest in that license. [804 KAR 4:390](#). If the license holder fails to renew during the thirty (30) day grace period, the grace period shall not be extended and the licensee must apply for a new license(s).

During the grace period, the licensee may not sell alcoholic beverages since the license has expired. [804 KAR 4:390](#).

The Department's Enforcement Division receives notice if a license has not been renewed within two weeks of expiration. An investigator from the Enforcement Division may inspect the licensed premises to determine whether the business is active or closed and to remind the business to renew its license(s) if still active.
